

## Training Agenda's

### Package Options

- Safety, Safety Type and Practical Uses
- Torch Setting
- File Management
- Constructing Welding Programs
- Testing Welding Programs
- Creating Global Positions
- Cube Monitor
- Backups
- User Passwords
- Spiral Weave
- Alternative Weld Processes
- Touch Sense
- TSF Files
- Common Faults
- Teach Pendant Fault Investigation
- Wire Feed Unit Fault Investigation
- Robot Controller Fault Investigation
- Encoder Reset Procedures
- Grease Procedures
- Control Panel Fault Investigation
- Robot Controller set up
- Torch Mount
- Constructing Arc Files
- Changing Properties
- Modifying Programs
- Replace Function
- Program Shift Functions
- Ext Axis Monitor
- Scheduled Backups
- Weld Trials
- Weaving
- Arc Sense
- MNU Files
- Crash Recovery
- Welding Fault Investigation
- Weld Set Fault Investigation
- Manipulator Fault Investigation
- On Site Origin Adjust
- Encoder Battery Check
- Cell Controls Fault Investigation
